## THE BREVITY BASKET.

Filled With Brief Mention of Many Minor Events of Yesterday.

A portrait of the late Dr. Ashford by O. S. Freeland, is now on exhibition in Barlow's window.

Detective Carter arrested Thomas Carrol, a 12-year-old colored boy, yesterday morning, for robbing Robert Parker, a barber, of two dollars.

The pews for the new Garfield Memorial Christian church are being made in Cincinnati, and it is expected that they will be completed so that the church can be formally dedicated by the sixteenth of December.

Dr. Antisell, of the patent office, gave an instructive lecture, illustrated by several interesting experiments, at the high school yesterday afternoon, upon the atmosphere and its conditions as bearing upon hygiene.

The remains of Mr. John H. Moore, whose death was noticed in yesterday's REPUBLICAN, were shipped to Manchester, N. H., yesterday afternoon by way of the Baltimore and Potomac railroad, where the internment will take place to-day.

Official orders were issued yesterday from police headquarters, causing the following changes in the force: Sergt. Isaac Pearson promoted to lieutenant and placed in charge of the second police precinct, relieving Lieut. Seidels, who is placed in charge of the detective corps at police headquarters.

The Ragan lectures will be resumed at the Congregational church this evening, and the subject "Paris" has been selected, with special reference to the children of the public schools, who will be admitted at reduced rates. The views which will be presented will include every notable building and historic locality in the gay French capital.

There has been some talk about fixing up the roquet gallery at police headquarters of late, but nothing definite as yet, has been determined upon. A reporter of THE REPUBLICAN was told by a headquarters detective that in a short time a case would be put up and all the photographs, properly numbered, with their histories, placed inside of it.

The Yolo Alumni in this city have elected the following officers: Clarence E. Dutton, president; Francis Miller and E. Whittlessey, vice presidents; W. A. Meloy, secretary; Geo. P. Whittlessey, treasurer, and J. E. Clarke, historian. The executive committee was as follows: Simon Newcomb, Garrick Haller, F. A. Seely, H. K. Willard, and J. C. Hornblower.

An autopsy was performed yesterday upon the body of Mr. Douglas Scott, a young man from Scotland, who was traveling in this country and who died at Pittsburgh. The remains were brought to this city at the instance of Dr. Alex. Macdonald, and the autopsy was performed by Dr. D. S. Lamb, at Spence's undertaking establishment, who decided that death resulted from a fall while in an epileptic fit to which the deceased was subject.

In the case of the death of Charles Meighen, the coroner's jury returned a verdict that the said Charles Meighen came to his death between the hours of 4 and 8 o'clock p. m., on the twentieth day of November, 1883, at the Greason house, corner of Thirteenth and E streets northwest, city of Washington, D. C., from suffocation by inhaling gas accidentally turned on by himself before retiring the night before.

## Frozen Out.

Says Mr. George T. Dreyer, 45 Division Avenue, Brooklyn, N. Y.: "I have suffered with frost bitten feet every winter. I applied St. Jacobs Oil a few times and am cured."

## THE WARM WAVE.

Palm Leaf Fans and Linen Dusters Brought Out Again.

The warm wave which visited this city Wednesday evening remained all day yesterday and caused a general taking off of overcoats and other heavy garments. The temperature was all the more oppressive because it followed closely in the wake of a cold wave and chilly winds. Many summer scenes were observable yesterday. Windows and doors were left open, and humanity perspired freely. One old gentleman passed up the avenue about noon, vigorously fanning himself with a large palm leaf, and a colored man appeared on the scene with a linen coat and last summer's straw hat. The dormant moisture in the concrete roadways was forced to the surface by expansion and the opening of the pores. This result gave the streets an after-rainy-day appearance, and made them so slippery that many horses fell during the day. Upon visiting the signal office the reporter learned that at 7 a. m. yesterday the thermometer stood at over 61°, and at 2 p. m. nearly 71°. The lowest temperature during the twenty-four hours was 59.5° and the highest 71.9°. The temperature, as shown by the drug store thermometers about town, however, ranged much higher. Lieut. Powell stated that the warm wave was due to the passage of a succession of areas of low barometer over this part of the country. There has been no high area so far this week. "This dose of torrid weather," said the lieutenant, "will be followed by rain and then clearing weather. There are no present indications of a cold wave." The latter fact will be good news for tramps, who will doubtless proceed to establish their headquarters in lumber yards and empty houses.

THE hair is frequently rendered prematurely gray by care, grief, delicate health, loss of spirit, or a depressed tone of the vital powers. The use of Hall's Vegetable Sicilian Hair Renewer will restore its youthful color and beauty.

After the Pioneers.  
The following letter was sent yesterday to each of the pioneers in the city:

HEALTH DEPARTMENT, WASHINGTON, D. C., Nov. 22, 1883.—SIR: I am directed to notify you that in view of the attention of the public to the health of the city, the regulations of the health department are being revised, and it is necessary to call attention to the regulations for all interested persons to have become acquainted with the provisions of section 5 of the regulations relating to the filing of bonds and placing of signs will be corrected and will be further advised by order of the commissioners.

Acting Health Officer.

## A Watchman Shot.

John W. Moran, a watchman for the Baltimore and Potomac Railway company's freight yards, was shot in the leg night before last, about 8:30 o'clock, by an unknown thief. It seems that Moran was standing between two coal cars watching a couple of thieves, who were breaking open a car loaded with merchandise, and from which they had taken a large box of chickens, consigned to a gentleman residing on G street northwest, and at this moment Moran showed himself, and one of the thieves fired twice at him with the above result. The thieves made their escape, leaving the plunder behind, and Moran was conveyed to his home, No. 1335 L street northeast. The ball has been extracted, and the patient is doing well.

Ask your grocer for the Orator.

## Would Have Her Inspected.

The Georgetown custom house was the scene of some excitement yesterday upon the arrival of the barkentine Edward Cushing from Trinidad, West Indies, with a cargo of asphalt for Barber & Co., of this city. The collector of customs stoutly refused to allow the entry of the vessel until she had been inspected by a quarantine officer. The inspection was finally made by a surgeon of the marine hospital service, and the barkentine found in good sanitary condition, the officers and crew being well. This action was deemed necessary because of the prevalence of yellow fever and other contagious diseases in the West Indies. The Cushing brought the last cargo of asphalt for the season.
